Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those

models, and an explanation of the rating system? Yes

Website address: http://www.iwireless.com/customer_support-hearing_aid.asp

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Our phones are categorized according to functionality:
Basic Phones are entry level devices offered for $10 or less.
Feature Phones are devices with more advanced features and capabilities.
Smartphone/PDAs are devices that run complete operating system software as a platform for application developers.
Phones and functions are explained to each customer when they come in to inquire on purchasing a new phone.

Methodology for Functionality Levels

Ease of use and device features are used to determine levels of functionality. Basic Phones are generally easier to use since they do not have a lot of "extras" that can be complicated.
Feature Phones are full of functions that include cameras, MP3 players, radios, web, video & bluetooth capabilities.
Smartphone/PDAs are not only loaded with functions, but usually have qwerty keyboards and applications allowing to download your calendar directly from your computer.
